

Project Development Phase

Model Performance Test

Date	
Team ID	SWTID-2026-2451
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	ServiceNow Flow Designer automation for school IT ticket classification. When a ticket is created with an empty Category, the flow checks the Short description for keywords (Wi-Fi / Network, Projector, Forgot password, Slow computer), assigns the matching Category and Subcategory, and emails the caller. Type: rule-based (no-code), no trained AI model	
2.	Accuracy	Training Accuracy - Not applicable (no model training) Validation Accuracy - 100% (2 of 2 test tickets classified correctly)	
3.	Fine Tunning Result(if Done)	Validation Accuracy - Not applicable (no fine tuning done; keyword rules were not tuned)
